

Information on Field visits organized in village Surhera (Zone L) and Mohammadpur Ramzanpur (Zone P-II) for the purpose of Land Pooling:

The Public Outreach program initiated by DDA to create awareness among landowners for Land Pooling has completed another successful week of conducting field camps in collaboration with NIUA and local stakeholders. These were conducted at villages Surhera on 22.07.2019 (Monday) and Mohammadpur Ramzanpur on 24.07.2019 (Wednesday). The officials of the Planning Department, Land Management Department, DDA and National Institute of Urban Affairs (NIUA) interacted with more than 400 landowners/ farmers/ stakeholders in the awareness programme, throughout the week.

Field campaign at village Surhera on 22.07.2019 (Monday)

At the outset, presentations were given by the Planning Department, DDA, explaining the broad aspects of the Land Policy, highlighting the major benefits of planned development. Further, details regarding the technical aspects of pooling such as the concept, terms for participation, participation process, eligibility criteria, how the development of land will be taken up, etc. were explained in detail. Later, representatives of NIUA presented the model sector layouts to the farmers/ landowners, explaining the conceptual drawings as prepared by them and the benefits of participating in the Policy.

Field campaign at village Mohammadpur Ramzanpur on 24.07.2019 (Wednesday)

To make these sessions more interactive and to encourage full participation from the landowners, Question-Answer sessions were carried out, wherein various queries were raised by the landowners. These queries were clarified by DDA and NIUA officials together, making direct presence at ground zero and establishing communication link with the stakeholders.

Maximum participation was observed from the villagers present in the discussion and they assured they will participate in the pooling process and try to make their sector qualify for further development. The discussion ended with a vote of thanks from the villagers.
